

As a satellite radio subscriber, I am disheartened to learn of the National Association of Broadcasters trying to prevent satellite radio from providing local traffic and weather content. Satellite radio provides me with variety and quality that I have been unable to find on the AM or FM dial. I pay for this service and it should not be up to the NAB to dictate what I can and cannot hear.

I respectfully request that the FCC reject the NAB's petition 04-160 and support satellite radio's ability to provide the kind of programming that I demand and deserve.

Thank you!
